FILE TRANSFER

EXPERTS HANDD

CHOOSING A FILE TRANSFER SOLUTION? OUR PROFESSIONAL INDEPENDENT CONSULTANTS WILL HELP YOU CLARIFY WHAT YOU ARE LOOKING TO ACHIEVE ALONG WITH THE RIGHT MIX OF PRODUCTS AND SERVICES.

We don't stop there, we will then provide full implementation, training and support. We'll design the solution to fit your architectural requirements, cloud, hosted, SaaS, appliance based, running on your infrastructure or a mixture to suit your changing needs, and advise on how to meet budget requirements, as well as providing a business case and ROI where applicable.

OUR PROVEN INDEPENDENT APPROACH

Our experience is that file and data transfer will become critical to your business, if it is not already, that is why we work with only the leading file transfer vendors who build scalable and feature rich products, including the following features and benefits.

- Multiple platforms and two tiered architectures.
- Robust options for secure file transfer (FTP/S, SFTP, HTTP/S, AS2).
- Web based file transfer interfaces easy to use and brandable to company look and feel.
- Information assurance - Secure transfer, ensure Integrity and validity.
- Compliance with security regulations including PCI-DSS, Sarbanes Oxley, GcSX, etc. while also supporting FIPS 140-2 certified protocols.
- Easy to use administrative interface.
- Flexible authentication options (AD, LDAP, ODBC, RSA/Radius) and access controls for user accounts.
- Automate processes using timed events, "hot" folder monitor, upload/download events, etc.
- Supporting remote administration, virtual folders, and automatic configuration backups.
- Provides a workflow driven automation interface without the need for custom scripting.
- Robust auditing capabilities and the ability to report on all actions, improving visibility.

"I just wanted to say what a great experience I have personally had dealing with HANDD. I was shown an excellent demonstration of the product via webex by you engineer, sales have been on the ball every step of the way getting software ordered and ensuring my comms have been answered appropriately, and I have just had my first experience of your support which was absolutely spot on. Not only was the question answered but the solution was provided by way of a zipped up project I just imported and now I know more about the system as well."

Gavin Singh, Ann Summers

OUR VENDORS

ONE POINT OF CONTACT, THE RIGHT ANSWER. OUR EXPERIENCE OF IMPLEMENTING MULTIPLE VENDOR SOLUTIONS ENABLES US TO CLOSELY MATCH YOUR REQUIREMENTS WITH THE RIGHT CHOICE OF FILE TRANSFER VENDOR.

It is a fact, sometimes vendor solutions sound all alike. The devil is always in the detail and the differences can be subtle but important, particularly as you are trying to solve today's problem with one eye on the future. Do you have the time to thoroughly investigate every aspect of every solution on the market?

We have done this for you, you tell us the problem you are trying to solve and our experts will listen and then discuss some options, maybe even suggest some additional areas you should be thinking about. We can then show you, technically, in detail a number of options, provide evaluations and PoCs, then implement and support the solution for you. **One point of contact, the right answer.**

HANDD
BUSINESS SOLUTIONS

**YOU
REMAIN
MORE FOCUSED
ON YOUR BUSINESS**

"I would like to express my thanks for one of your engineers, who assisted us with the implementation. It's refreshing to have a dedicated professional that can take you on a journey from pre-deployment to go-live in a way that it felt like a walk in the park. He not only communicated effectively, but provided a level of documentation and technical prowess that left us here very happy."

**Steven Maccioli,
Prospects Services**

**WE ARE THOUGHT LEADERS ON DATA SECURITY AND FILE TRANSFER.
OUR PROFESSIONAL AND PRACTICAL APPROACH ENSURES SUCCESS.**

Classifying, protecting and securely exchanging data can be a complex, overwhelming task. You need the independent advice and expertise of data security and file transfer experts. You need HANDD.

HANDD works closely in partnership with leading brands in Managed File Transfer, Data Loss Prevention and Data Security but, distinctively, we pursue independent relationships. Our only loyalty is to you, our clients.

That's why so many organizations and enterprises trust us to give them the solution they need, from the vendors that are best suited to the job.
