Over 60 Unique Tasks

GoAnywhere MFT is an all-in-one solution that will automate and manage all of your organization's file transfers and related processing through a single point of control. Its intuitive interface and extensive workflow features will help eliminate the need for traditional file transfer scripts, single-function tools and manual processes.

- Use a modern browser-based dashboard to configure and monitor file transfers
- Create multi-step workflows to transfer, encrypt and process files
- Connect to a wide variety of servers for exchanging data using standard protocols
- Allow trading partners to securely connect and exchange files with your organization
- Integrate with existing applications and programs using commands and APIs
- Monitor folders for new files and process immediately
- Schedule file transfers to run at future dates and times with custom calendars
- Translate data to/from popular file formats and databases
- Protect data at rest and in motion using popular encryption standards
- Keep sensitive files out of the DMZ while protecting the private network
- Maintain compliance with detailed audit logs and reports
- Cluster installations for scalability and active-active high availability

Modern Browser-Based Dashboard for Administration

## INFO~TECH
RESEARCH GROUP

GoAnywhere MFT receives High Scores in recent Info-Tech Research Group study on Managed File Transfer Solutions

Download and read the complete report and vendor comparisons today at **GoAnywhere.com/infotech**

GoAnywhere MFT allows your employees, customers and trading partners to efficiently share files and collaborate from any authorized computer or mobile device using intuitive screens and apps.

Sensitive files remain on-premise (out of the cloud) with centralized access controls in order to meet strict compliance requirements. All tranactions are audited in a central database for reporting purposes.

This is a cost-effective solution since GoAnywhere MFT is sold as a perpetual one-time license (no subscription fees).

GoDrive

GoDrive by GoAnywhere™ is an on-premise solution that provides Enterprise File Sync and Sharing (EFSS) for your employees and partners. Files and folders are easily shared between users with advanced collaboration features.

• Sync files across Windows, Mac and Mobile devices
• Protect files with end-to-end AES 256 bit encryption
• Set disk quotas at the global and per-user level
• Track file revisions and comments
• Restore deleted files from a trash bin
• Remote wipe lost or stolen devices

Secure Folders

GoAnywhere MFT offers an intuitive HTTPS Web Client that allows employees, customers and trading partners to quickly transfer files between their desktop and your server using the convenience of their web browser.

• Authenticate users against Active Directory or LDAP
• Set granular folder permissions
• Drag-n-drop within a modern HTML 5 interface
• Trigger actions to send email alerts or run workflows
• Encrypt files at rest and in motion
• Rebrand interface with custom logo and privacy text

Secure Mail

Secure Mail by GoAnywhere™ allows employees to send confidential messages and files as secure HTTPS links using the convenience of Microsoft Outlook or an intuitive Web Client.

• Send large files without limitations
• Encrypt and store files/messages (packages) on-premise
• Protect packages with unique tokens or passwords
• Expire packages after a specified number of days
• Limit the maximum number of file downloads
• Allow secure replies with confidential messages and files
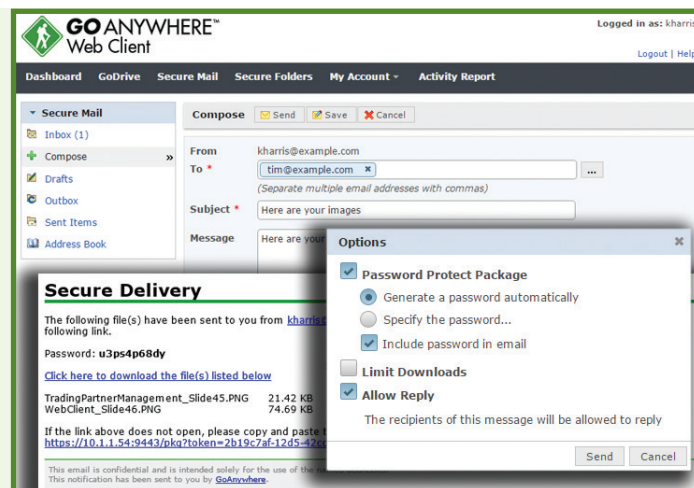

Protocols and Standards

Encryption and Compression

Open PGP	TLS
GPG	AES
SSH	FIPS 140-2 Compliance
SSL	ZIP, GZIP, TAR

Connectivity

SFTP	SMB/CIFS
FTPS	ICAP for Antivirus and DLP
SCP	SMTP, POP3, and IMAP
FTP	Message Queue
HTTPS	Native Calls
AS2	DMZ gateway

Databases

SQL Server	DB2
Oracle	PostgreSQL
MySQL	Informix

Logging and Compliance Reporting

GoAnywhere MFT generates comprehensive audit logs of all file transfer activity in a central database which can be searched and viewed through the browser-based administrator.

The advanced reporting module in GoAnywhere MFT allows you to gain access to this important audit information as easy-to-read PDF documents.

These reports can be run instantly through the browser-based console and scheduled for distribution to the network or via email.

About Linoma Software

Founded in 1994, Linoma Software provides innovative technologies for protecting sensitive data and automating data movement. Linoma Software has a diverse install base of over 3,000 customers around the world including corporations, non-profit organizations and government entities. With its dedication to research, development and superior customer service, Linoma Software is recognized as a leader in software development.

Customer Support

The success of Linoma Software is largely due to our customer-centric approach to the markets we serve. Providing the highest level of customer support is our number one priority. We are able to efficiently respond to any issues or questions through phone, email and live online assistance.
